RTM: 0412 641 614 | TBW SLIPWAY: 07 55 000 000

SAFETY & NAVIGATION

SAFETY EQUIPMENT

- ✓ Ensure all safety equipment is in date and registered where applicable and meets the requirements outlined by your local waterway authority for the areas you wish to operate
- ✓ It is advised that you conduct monthly safety drills so you and regular guests are familiar with the safety procedures aboard ensuring a swift response in the event of an emergency

NAVIGATION EQUIPMENT

- ✓ Ensure all navigation equipment is in good condition, operational and reading accurately

NAVIGATION LIGHTS

- ✓ Inspect condition of navigation light lenses to ensure they are not weathered and firmly mounted
- ✓ Test for proper operation

CHARTS/BOOKS

- ✓ Ensure you have relevant up to date charts, books & tide charts aboard
- ✓ Test plotter for proper operation of the electronic charts

TENDER

- ✓ Conduct full inspection of tender condition and operation inc. all associated systems and equipment
- ✓ Inspect lifting strong point and equipment for good condition
- ✓ Inspect all safety gear for expiry dates and registration where applicable
- ✓ Conduct radio check with VHF radio

RADIO

- ✓ Visual inspection of unit, mic and cable to ensure they are in good condition and not weathered
- ✓ Conduct radio check with your local VMR to ensure your VHF radio is operational
